

ACADEMIC USE AGREEMENT

50% Academic discount applies from the first copy

In order to facilitate the use of AvisMap products by professors and students in both research and teaching, we offer a generous discount for academic use. For copies of AvisMap products that are used in research projects, we offer a **50% discount** off the AvisMap products list price, starting with the first license.

80% Classroom discount licenses

Being an open and generic software AvisMap products is especially suitable for use in classroom as it allows both faculty and students to use it with any GIS projects for research and teaching. If you already have two AvisMap products licenses and want to use AvisMap products in your course work, we will provide, **80% discount**, as many extra licenses as you need in order to install AvisMap products in your student computer labs.

If you still do not have two stand-alone licenses (one for yourself and one for a TA) you may order them at the research rate (**50% discount**).

Permission to electronically publish AvisMap products documentation and to print it for you students

As the owner of a classroom license you are entitled to download the AvisMap products user's guide and tutorials from our on-line documents center on our web site and make them available to your students over your computer network, thereby eliminating costs, saving the trees and avoiding copyright matters. If the students want a hard copy, they can print it out at their expense.

In order to qualify for the academic discount, please fill out the Academic Use Agreement sign it and send the form to AvisMap GIS Technologies.

ACADEMIC USE AGREEMENT

(Please type or print)

_____ (Name of Institution) hereby affirms that AvisMap products _____ will be used solely for educational purposes, as detailed below:

I. For classroom instruction: (fill this section only if you are ordering a classroom)

Name of course: _____

Anticipated number of students: _____

Semester taught: _____

Short description of course: _____

How will the above software be utilized during this course? _____
